The DENTAL SHOP |||||™

Our aim as a dental practice is to prevent problems occurring in the first place, so we want patients to use the right dental care products.

The Dental Shop stocks a wide range of items selected by the dentists and hygienists, from tooth whitening and fresh breath products to interdental cleaning aids. We offer expert advice backed by prices that are deliberately set lower than the major stores and supermarkets.

Electric toothbrushes are now a very important part of our range and we only stock those models which have shown they can provide significantly better cleaning than a manual toothbrush. We also guarantee you won't find a better deal anywhere.

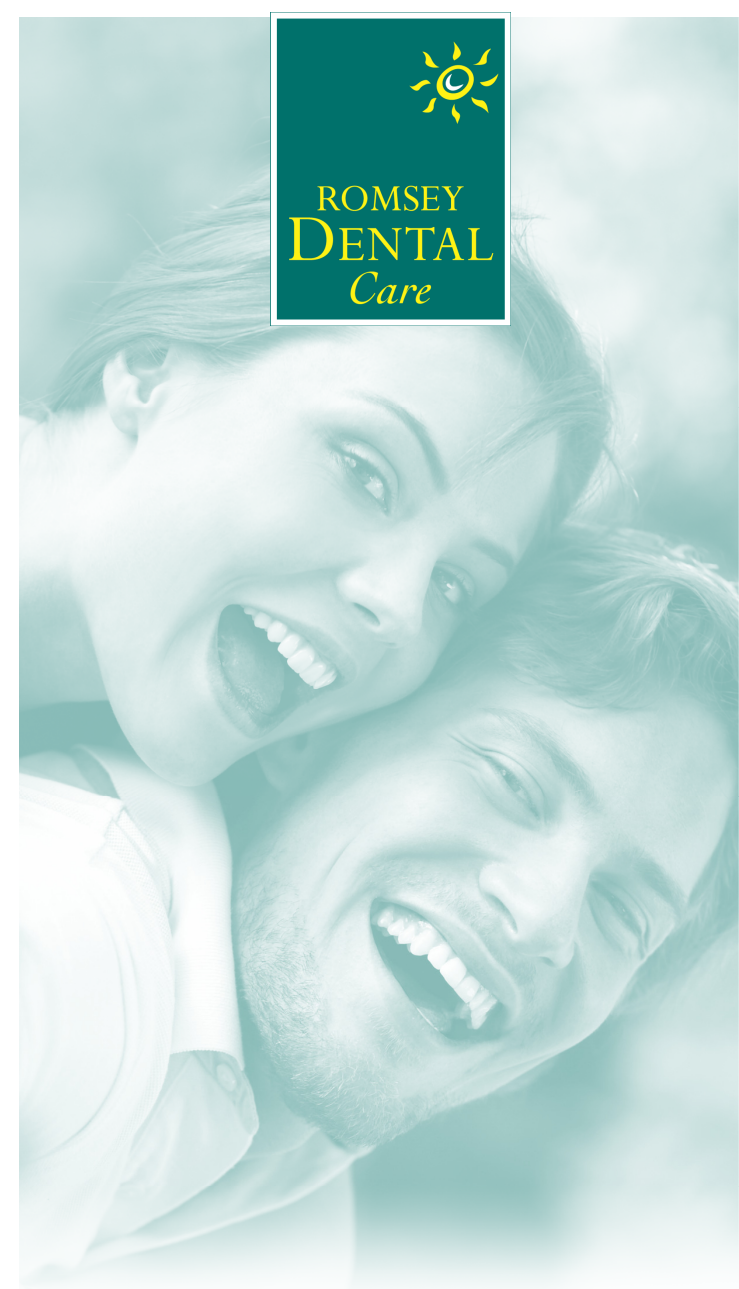

Why not pop into our shop or check out our latest offers on our internet shop at www.dental-shop.co.uk

Price Guide January 2011

Romsey Dental Care & Cosmetic Clinic
Samantha Price BDS (Edin) MFGDP (UK)
Slawomir Stobiecki Lek.Stom (Poland)
Andrew Hey EDH (Hygienist)

We publish our private prices in the knowledge that they represent excellent value for money and are highly competitive. We use only the most skilled technicians and the finest quality materials.

Please note this is a price guide rather than an exhaustive list as the dentist must examine you in order to provide a detailed and precise quotation. If you are interested in something not listed please just ask.

We will always discuss all your options with you to meet your budget and ensure you are very clear about what you are paying at each visit.

We offer a minimum of two years' guarantee on our work (please ask for details on specific items) provided the patient attends the practice regularly as recommended by the dentist and follows the dentist's advice for oral care including hygienist visits.
